More information will be available at a later date. The American Recovery and Reinvestment Act provides \$750 million for a program of competitive grants for worker training and placement in high growth and emerging industry sectors. Of that amount, \$500 million is targeted for research, labor exchange, and job training projects that prepare workers for careers in energy efficiency and renewable energy as defined in the Green Jobs Act: energy efficient building, construction, and retrofitting; renewable electric power; energy efficient and advanced drive train vehicles; biofuels; deconstruction and materials use; energy efficiency assessment for residential, commercial, or industrial sector, and manufacturing of sustainable</p>		<p>Not Released</p>

The remaining \$250 million will be for projects in other high growth and emerging industry sectors with a priority for projects that prepare workers for careers in the health care sector and projects that are tied to industry sectors where jobs are being created as a result of Recovery Act investments such as infrastructure investments. In order to maximize the impact of these competitive grants and leverage the other investments in the Recovery Act, the Department of Labor (DOL) is collaborating with other Federal agencies and developing a multi-pronged investment approach with these funds. DOL plans to issue Solicitations for Grant Awards (SGA) no later than June 30, 2009. The SGA will provide specific requirements for use of the funds, certification, data reporting, performance measures, and other necessary information. DOL will be publishing the grant opportunities on Grants.gov. Information on grant opportunities will also be available on DOL's Recovery Web site: http://www.dol.gov/recovery/. <p>25. Department of Justice-Office of Juvenile Justice and Delinquency Prevention-Second Chance Act Youth Offender Reentry Initiative</p>	<p>The Second Chance Act Youth Offender Reentry Initiative will assist jurisdictions characterized by large numbers of offenders returning to their communities after release from a residential confinement. Within the context of this initiative, reentry is not envisioned to be a specific program but rather an evidence-based process that begins while the offender is still confined and ends with his or her successful reintegration into the community, which is indicated by a lack of re-offending and new arrests. This process includes the delivery of a variety of evidence-based services while the offender is still confined and during his or her reentry into the community to ensure that the juvenile's transition is safe and successful. Award amounts up to \$750,000.00. 50% match requirement.</p> <p>http://ojjdp.ncjrs.gov/grants/solicitations/FY2009/SecondChanceReentry.pdf</p>		<p>May 7</p>	<p>June 15</p>	

<p>26. Department of Justice-Office of Juvenile Justice and Delinquency Prevention-Second Chance Juvenile Mentoring Initiative</p>	<p>The Second Chance Act (P.L. 110-199) authorizes grants to government agencies and nonprofit groups to provide employment assistance, substance abuse treatment, housing, family programming, mentoring, victims support, and other services to help adult and juvenile ex-offenders make a successful transition from incarceration to the community. In support of the goals of the Second Chance Act, OJJDP will provide grants to support mentoring and other transitional services essential to reintegrating juvenile offenders into the community. The grants will be used for mentoring juvenile offenders during confinement, through transition back to the community, and post-release; transitional services to assist the reintegration of youth offenders into the community; and training in offender and victims issues. <p>27. Department of Justice-Office of Justice Programs-Weed and Seed Communities Competitive Program</p>	<p>The Weed and Seed strategy aims to prevent, control, and reduce violent crime, criminal drug-related activity, and gang activity. The Weed and Seed strategy is a community-based, comprehensive multi-agency approach. Four elements make up the two-pronged Weed and Seed Strategy: Law Enforcement; Community Policing; Prevention, Intervention, and Treatment; and Neighborhood Restoration. Limited discretionary grant resources are available annually for communities selected as Weed and Seed Communities subject to Congressional funding and level of grantee performance. A Weed and Seed Community (WSC) must be developed in partnership with a variety of key local organizations and the local United States Attorney's Office (USAO). WSCs must work to reduce crime and improve the quality of life for residents in a community primarily through the redeployment of existing public and private resources, addressing both crime and social related problems that without proper intervention often lead to violent crime, drug abuse, and gang activity.</p> <p>http://www.grants.gov/search/search.do;jsessionid=4Fk6KROF2pSq1Nx9r0INL_LFfhQM3QkZv6sDVnpFqGfrTjXJzdLvL!1834325596?oppId=47357&flag2006=false&mode=VIEW</p>		<p>May 13</p>	<p>Dec. 1 2009</p>
